Henvey Inlet First Nation (HIFN) has broad authority to manage and protect its reserve lands pursuant to the *Framework Agreement on First Nation Land Management*, the *First Nations Land Management Act*, HIFN's Land Code and HIFN's Land Laws. This authority includes the jurisdiction to pass land laws for the conservation and protection of reserve lands, including laws for environmental protection and development on reserve lands.

On 28 February 2016, following consultation and technical review, HIFN Band Council enacted Land Law 2015/16-012 ENVIRONMENTAL PERMIT, which provides Henvey Inlet Wind LP with an environmental permit to allow development of a 300 megawatt wind energy centre on Henvey Inlet Indian Reserve No. 2 (the "Energy Centre"), subject to compliance with conditions in the permit and all other applicable laws. The permit was declared in force on 11 March 2016 by Band Council Resolution (BCR) 2015/16-081.
